

TROLLEY MEN HELD SUCCESSFUL OUTING

Families and Friends of Employees Enjoy Big Day at Chesapeake Beach.

Members of the entertainment committee, of which Fred J. Mersheimer is chairman, who had charge of the thirteenth annual excursion of Washington Railway and Electric Company employees to Chesapeake Beach yesterday, are receiving congratulations for what is thought to have been the most successful of all outings.

More than 5,000 took the trains from Washington and spent an enjoyable day in the many novelties offered for entertainment. The fact that an electric storm visiting the beach about 5 o'clock today is forgotten in the remembrance of a day brimming over with fun and amusement.

From the very start of the activities, the baseball game, between Pepco and the railway men, which was landed by the former by a score of 5 to 3, to the dance program, the last on the list of amusements, the railway men and their families appeared to have all the pleasure possible.

The electric storm held up returning cars for awhile and caused a stir among the little ones, but no harm was done by many without shelter, but no damage was done and no one hurt.

The same sums respectively go to the foreign missions board of that church, the Women's Hospital, and Williams College.

Other public bequests are the Hampton Normal and Agricultural Institute, at Hampton, Va.; the Tuskegee Normal and Agricultural Institute, Tuskegee, Ala.; and the Home for Consumptives, Denver, Col., each \$50,000; and Hope College, Holland, Mich., \$30,000.

Beautiful, Soft, Fluffy Hair An Aid to Beauty

Who does not love a head of pretty hair? Some women think it is a gift of nature and envy their more fortunate sisters. If your hair is not fluffy, soft and lustrous, is falling out, streaked, faded, brittle, or full of dandruff, and if the scalp itches, do not think it must always be that way. For pretty hair is only a matter of care and proper nourishment of the hair roots. Hair is something like a plant—if neglected it soon withers and dies, while with a little attention it keeps fresh and beautiful.

Parisian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow thick, fluffy, soft and lustrous. It removes dandruff with one application and quickly stops itching, itching and falling hair. It is the ideal hair tonic and scalp treatment for men, women and children—contains nothing injurious and is delicately perfumed.

O'Donnell's Drug Store, or any drug or toilet counter can supply you with Parisian Sage—it is inexpensive. You cannot be disappointed with this delightful and helpful hair tonic for the first few days' use will give the hair the beauty and charm of youth.—Adv't.

Don't Fail to Visit the
Old British Convict Ship Success

Now in Washington, en route to San Francisco, where she will be a feature of the great Panama Exposition.

THIS WONDERFUL VESSEL HAS MADE HISTORY. In 1781 the "Convict Ship Success" was built at Bristol, England. Purchased by the British government in 1781, she was converted into a floating convict prison, and became the most famous ship of the Fleet, being generally known as "The Ocean Hell."

She is the oldest ship in the world and the only convict ship left afloat of that dreadful fleet of bells which sailed the Seven Seas in 1780. A. D. She is unchanged after all these years, nothing being omitted but her human freight and her sufferings from the cruelties and barbarities practiced upon her. Aboard her are now shown, in their original state, all the horrors and sufferings of the convict, the whipping post, the stocks, the branding iron, the leaden-tipped cat-o'-nine-tails, the coffin and other revolting and cruel inventions of man's brutality to his fellow man.

From her to meet the great ship of the future, the world has ever known in the history of human progress.

Chauffeur Is Paralyzed While Cranking Motorcar

Partially paralyzed as the result of an unusual accident, Robert Bowles, a chauffeur, of 1224 Twenty-second street northwest, is a patient today in Casualty Hospital.

Bowles was cranking an automobile in a garage in N street northwest last evening, when the engine "backfired." The sudden reversal of the crank wrenched the man's arm and threw him to the floor in such a manner that his spine was injured, and he was unable to regain his feet. The doctors say the paralytic condition is only temporary.

FINLEY FILES NEW SUIT FOR DIVORCE

Bottler Names Three Co-respondents and Makes Sensational Allegations.

Three co-respondents are named and sensational allegations made in a petition for an absolute divorce filed in the District Supreme Court today by Frank M. Finley, bottler, against Mary A. Finley.

The petition sets forth that Finley found one of the co-respondents at his home, 28-12 Massachusetts avenue northeast, on April 27, 1909, and that he was shot by the man. He further charges Mrs. Finley held him while the man made his escape.

"It is alleged by Finley that his wife began an abandoned life," the charge also is made that she was treated at the Washington Asylum Hospital because of excessive drinking.

The couple were married in Baltimore on November 14, 1883.

The domestic troubles of the Finleys, as developed in a previous divorce action, were aired before the Wright investigation committee with reference to charges of collusion in seeking a decree.

Friends to Come to Aid Of Mrs. Belva Lockwood

Mrs. Belva A. Lockwood, who is threatened with ejection from her home at 619 F street northwest, today is still confined to her bed with the double fracture of the arm she sustained on Tuesday.

The fact that her case has been summoned for today does not seem to have distressed her unduly. The claim against the property is held by the New England Casualty Company, but her friends assert that a number of well-to-do Washingtonians are coming to her aid.

Mrs. Lockwood's physician, Dr. Victor Hammond, has signed a certificate that she is unable to appear in court today. There is a possibility that a postponement of the hearing may take place. Her lawyer, Mr. Hitt, will file a reply to the summons.

Syme Would Bar Glaring Motor Light Everywhere

The most drastic regulation yet promulgated in the District will shortly be placed before the Commissioners for their approval, according to a statement made today by Conrad H. Syme, Corporation Counsel, who has been making investigations on his own account of the dangers incident to the use of dazzling head and side lights on automobiles.

Mr. Syme will undertake at once the drafting of a regulation prohibiting entirely the use of gas or electric head or side lights unless some practical means can be found to subdue their brilliancy. He is of the opinion that the removal of the reflectors or the substitution of a heavy ground glass for the lenses now used upon the lamps may accomplish the purpose.

"Since the recent special order of the Commissioners directing the police to carefully enforce the present police regulations against dazzling lights on automobiles," Mr. Syme stated this morning, "I have taken particular care to go into different parts of the city and the suburban districts to observe how effective the regulations are and how well they are obeyed."

"My own observation is that, despite the regulations and the warnings and activities of the police, the danger from dazzling head lights and side lights has only been slightly lessened, and not obviated at all. The side lights on most of the new machines are quite as dangerous as the head lights. I think the danger is greater on the suburban streets and highways than on the brightly lighted streets in the city."

As many of the automobilists here will heed the regulations that have been given, and continue to use lights that are dangerous and unnecessarily bright, I shall certainly recommend to the Commissioners that no electric and gas head lights or side lights shall be permitted to be used unless the reflectors are removed or the plain front glass replaced with ground glass of such density as to prevent a dazzling light.

"I had hoped that a measure as drastic as this would not be necessary, but I was mistaken. Unless some action as radical as the above is taken with reference to the head and side lights, it is inevitable that serious accidents or loss of life will occur."

HITCHCOCK CHARGES VIOLATION OF RULES

Asks Stook Exchange Bill Be Recommended Under Regulation Requiring Quorum.

A row is expected in the Senate because Chairman Owen, of the Banking and Currency Committee, has had the stock exchange regulation bill reported from his committee and put on the calendar by an alleged violation of the rules. Senator Hitchcock, of Nebraska, a member of the committee, has moved to recommit the bill.

Senator Owen took ship today for Europe.

Senator Hitchcock contends the report was ordered by five members, two less than a quorum, present. Senators Hollis and Pomerene had authorized the chairman to count them as part of the quorum. Senator Owen did this and recorded them as for a report on the bill. Senator Hitchcock contends there can be no such thing as a "constructive quorum."

President to See "Movies"
On White House Lawn

For the first time in the history of the White House outdoor "movies" will be exhibited this evening on the south lawn. For the benefit of the President, members of his Cabinet, and the ladies of the official family, a three-reel photoplay, entitled "Cabrera," and described as the most wonderful motion picture play ever produced, will be shown on a fourteen by sixteen foot screen. Augustus Thomas, the playwright, who will be the President's guest at dinner, is responsible for the performance.

The play, written by Gabriel D'Annunzio, deals with the glory of the ancient Rome and brings in the character of Caesar.

Prof. Klein, pianist at the Hippodrome, New York, will play.

GERMAN SOCIETIES ASSAIL EXCISE LAW

Plan Amalgamation for Erection of Single Clubhouse for District Members.

Every Washington German society will be asked to join in building a large clubhouse to centralize all organizations here. This decision was reached by representatives of various organizations at the Arion Society's clubhouse, 1006 E street northwest last night.

Each organization will have to pay a liquor license of \$1,500, according to the provisions of the new excise law, and this, it was explained at the meeting, would cause the disintegration of many of the societies.

The new excise law was severely criticized at the meeting at which August Schmidt presided. It was decided to appoint a committee to call on each German organization in the District to submit the amalgamation plan. Martin Wiegand, president of the United German Societies, will head the committee.
